Sago Tea is a delicious beverage made with either green or black tea, non dairy creamer and large tapioca balls (called Sago or pearls). Many types of flavoring can be added such as coconut, almond, taro, lychee, etc. up to over 40 varieties. In case you haven't noticed, there is a new huge drink craze going on right now and it's sweeping across the nation. This drink was developed and became popular in Taiwan about 15 years ago and recently migrated to North America within the last 8 years or so.

But the fun part of the Sago Tea isn't the colors or the flavors, it's the SAGO pearls. About the size of small marbles, they have the consistency like that of gummy bear candy. Special jumbo sized straws are provided to sip and slurp up these jumbo pearls along with the iced, hot or fruit based beverages.

Try it and find out what you have been missing.

5 Minute Recommended Portions
All beverages are served cold or hot with other exceptions. We use Real Daily Creamer for our Milk Teas.
All Sago Tea is served with a portion of Sago Tea. Sago Tea is served with a portion of Sago Tea.
